Dear **Representative Name**,

My name is _____, and I live in _____. I would like to compete in the upcoming 2022 Congressional App Challenge. The CAC allows students like me the chance to learn how to code a fully-functioning app from start to finish. Winners of the CAC in each district have the opportunity to have their app displayed in the U.S. Capitol Building. Unfortunately, I'm not eligible to compete until your office signs up to participate.

The deadline for congressional offices to register for the 2022 Congressional App Challenge is August 1st, 2022. You can register by reaching out to callen@congressionalappchallenge.us or visiting the website https://www.congressionalappchallenge.us.

The CAC is a great way for students like me to engage in computer science education, and it would mean a lot if you could help me have the opportunity to do that. I hope that you'll register for the Congressional App Challenge in 2022 so that I'll get the chance to compete and learn how to turn my idea into a working app that can serve our district.

Sincerely,
Student Name
